

## DRAFT PROGRAM

### CHAA.net Networking Seminar Series – 2006

*In 2006 a total of three seminars will be provided by CHAA targeted at meeting the needs of NSW Health and its industry clients. The overall theme for the year is 'NSW Health Facilities: New Service Models, Delivery Systems and Business Practices'.*

#### Seminar 1: NSW Health Facilities: impact of new service models on facility design

Date: Wednesday 5<sup>th</sup> April 2006 5.30 – 8:00pm

Venue: Carlton Crest Hotel,  
169-179 Thomas Street, Haymarket, Sydney

#### Learning Objectives and Outcomes

On completion of this seminar, attendees will have achieved the following learning objectives and outcomes:

1. Increased awareness of new service models for the exemplar areas of psychiatric emergency care, rural health and surgical care that are currently being implemented by NSW Health.
2. Understanding of how these new service models affect health service planning and the associated facility requirements for delivery of these particular services
3. Ability to translate this understanding to the design and evaluation of appropriate physical facilities that will support delivery of the new service models.

#### References and Further Reading

A reading list will be compiled by the ACHSE Health Services Management Library and will be available following the seminar to attendees by visiting [http://www.achse.org.au/library/lib\\_references.html](http://www.achse.org.au/library/lib_references.html)

Presentations from this seminar will be available from the CHAA website at: [www.chaa.net.au](http://www.chaa.net.au) Information regarding upcoming seminars is also available from this link.

#### Continuing Professional Development / Education

Where required by your professional institute to fulfil the requirements for CPD/E points, a self assessed learning form is available for this seminar.
