

PROGRAM

CHAA.net Networking Seminar Series – 2006

In 2006 a total of three seminars will be provided by CHAA targeted at meeting the needs of NSW Health and its industry clients. The overall theme for the year is 'NSW Health Facilities: New Service Models, Delivery Systems and Business Practices'.

Seminar 2: The NSW Health System: Facilities Management & Sustainability

Date: Wednesday 23rd August 2006 5.30 – 8:00pm
 Venue: Carlton Crest Hotel,
 169-179 Thomas Street, Haymarket, Sydney

Learning Objectives and Outcomes

On completion of this seminar, attendees will have achieved the following learning objectives and outcomes:

1. Increased awareness of the Green Star Health Tool and its potential for application in NSW Health facilities.
2. Understanding of how building services maintenance can be improved to increase energy efficiency.
3. Knowledge of the issues surrounding the design, construction and management of sustainable facilities.

References and Further Reading

A reading list will be compiled by CHAA and will be available in printed form on the evening and following the seminar by visiting www.chaa.net.au and the link for the Event. Presentations from this seminar will be available from the CHAA website. Information regarding upcoming seminars is also available from this link.

Continuing Professional Development / Education

Where required by your professional institute to fulfil the requirements for CPD/E points, a self assessed learning form is available for this seminar.
