

DRAFT PROGRAM

CHAA.net Networking Seminar Series – 2006

In 2006 a total of three seminars will be provided by CHAA targeted at meeting the needs of NSW Health and its industry clients. The overall theme for the year is 'NSW Health Facilities: New Service Models, Delivery Systems and Business Practices'.

Seminar 3: Culture & Health: services planning, facility design & operational issues

Date: Wednesday 18th October 2006 5.30 – 8:00pm
 Venue: Carlton Crest Hotel,
 169-179 Thomas Street, Haymarket, Sydney

Learning Objectives and Outcomes

On completion of this seminar, attendees will have achieved the following learning objectives and outcomes:

1. Increased awareness of cultural inclusion & consultations in the service planning process, using a project example that is currently being implemented by NSW Health.
2. Understand how to evaluate the impact of collaborative design components.
3. Increased knowledge of how to translate this understanding to the design and evaluation of appropriate physical facilities that will support delivery of culturally sensitive healthcare

References and Further Reading

A reading list will be compiled by the ACHSE Health Services Management Library and will be available following the seminar to attendees by visiting http://www.achse.org.au/library/lib_references.html

Presentations from this seminar will be available from the CHAA website at: www.chaa.net.au Information regarding upcoming seminars is also available from this link.

Continuing Professional Development / Education

Where required by your professional institute to fulfil the requirements for CPD/E points, a self assessed learning form is available for this seminar.
